HBK GLOBAL SECURITIES L.P. (A Delaware Limited Partnership)

Financial Statements
For the Year Ended December 31, 2003

PricewaterhouseCoopers LLP 2001 Ross Avenue, Suite 1800 Dallas TX 75201-2997 Telephone (214) 999 1400

Report of Independent Auditors

To the Partners of HBK Global Securities L.P.

In our opinion, the accompanying statement of financial condition and the related statements of operations, changes in partners' capital and cash flows present fairly, in all material respects, the financial position of HBK Global Securities L.P. (the "Company") at December 31, 2003, and the results of its operations and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information contained in Schedules I, II, and III is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

HBK GLOBAL SECURITIES L.P. NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2003 (EXPRESSED IN 000's OF U.S. DOLLARS)

1. Organization

HBK Global Securities L.P. ("Global"), a Delaware limited partnership formed on March 4, 2002, is a broker-dealer registered with the Securities and Exchange Commission (the "SEC") and is a member of the National Association of Securities Dealers (the "NASD"). The NASD granted membership to Global to operate as a broker-dealer on October 9, 2002. Global is a subsidiary of HBK Securities LP Inc. and HBK Securities GP Inc. (collectively, the "Partners") which are wholly-owned subsidiaries of HBK Master Fund L.P. (the "Master Fund"). Global's only business is to borrow and lend securities for its own account. Its counterparties in these transactions include both the Master Fund and unaffiliated institutions, such as banks, insurance companies, pension plans, investment companies and broker-dealers.

2. Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been presented on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Commitments

In the normal course of business, Global may enter into contracts which provide general indemnifications and contain a variety of representations and warranties.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash on deposit at U.S. financial institutions and highly-liquid investments with maturities of three months or less when purchased.

Fixed Assets

Fixed assets are carried at cost less accumulated depreciation. Global has elected to compute depreciation according to the applicable tax methodology using estimated useful lives of three to five years.

Income Taxes

In accordance with federal income tax regulations, no income taxes are levied on a partnership, but rather on the individual partners. Consequently, no provision or liability for federal income taxes has been reflected in the accompanying financial statements.

HBK GLOBAL SECURITIES L.P. NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2003 (EXPRESSED IN 000's OF U.S. DOLLARS)

3. Securities Financing Transactions

Global enters into securities borrowed and loaned transactions for its own account. Using an approach commonly referred to as "matched-book", Global will borrow securities from one institution, such as a bank, insurance company, pension plan, investment company or broker-dealer, and simultaneously, or soon thereafter, re-loan the same securities to another institution. Generally, the securities will be reloaned to the Master Fund. Securities borrowed transactions require Global to deposit with the lender cash or other collateral with a value ranging from 102% to 105% of the value of the securities being borrowed. With respect to securities loaned, Global receives collateral in the form of cash or other collateral of an amount ranging from 102% to 105% of the market value of securities loaned. At December 31, 2003, the value of the underlying securities borrowed and loaned was \$459,242.

Securities lending transactions are classified as *Receivables for securities borrowed* and *Payables for securities loaned* at the amount of cash collateral advanced or received. Although securities borrowing and lending activities are transacted under a master securities lending agreement, such receivables and payables with the same counterparty are not offset on the Consolidated Statement of Assets and Liabilities. Fees received or paid by Global are classifed as *Rebate fee income* or *Rebate fee expense* on the Consolidated Statement of Operations.

4. Deferred Compensation

Global has an incentive bonus plan for employees whereby a portion of any annual bonuses may be deferred at Global's discretion. Generally, deferred amounts increase or decrease at an index rate that is based on the rate of return earned by funds affiliated with Global. For the period ended December 31, 2003, expenses of \$836 related to the deferred bonus plan are included in *Employee compensation and benefits* on the Statement of Operations and as *Deferred compensation* on the Statement of Financial Condition. In general, awards under the plan vest and become payable in July of the first, second, third, and fourth years after the date of the grant if the grantee is still employed by Global.

5. Regulatory Capital Requirements

As a registered broker-dealer, Global is subject to the SEC's Uniform Net Capital Rule, which requires the maintenance of minimum net capital. Global has elected to use the alternative method which requires that it maintain minimum net capital as defined in Rule 15c3-1 under the Securities and Exchange Act of 1934 (the "1934 Act"), equal to the greater of \$250 or 2% of aggregate debit balances (as defined in Rule 15c3-3 under the 1934 Act). At December 31, 2003, Global had net capital of \$137,692, which is \$137,442 in excess of its minimum net capital requirement of \$250 on that date.

6. Financing Activities

Global has a revolving line of credit arrangement in the amount \$150,000 from the Master Fund. Interest on borrowings under this credit arrangement accrues at the daily Federal Funds rate plus 65 basis points. Global has not drawn on the line of credit.

HBK GLOBAL SECURITIES L.P. NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2003 (EXPRESSED IN 000's OF U.S. DOLLARS)

7. Off-Balance Sheet and Concentrations of Credit Risk

Global's principal activities are with banks, insurance companies, pension plans, investment companies, broker-dealers and clearing organizations. This results in credit risk in the event that the counterparty fails to satisfy its contractual obligations. Counterparty credit risk arises in two primary situations. First, Global posts collateral with counterparties under securities borrowed transactions. If the value of the securities declines, the counterparty will be obligated to return the collateral. If the counterparty is unable to satisfy the obligation, Global may incur a loss, measured by the difference between the value of the securities borrowed and the higher value of the collateral held by the counterparty. Second, Global accepts collateral from counterparties under securities loaned transactions. If the value of the securities increases, the counterparty is required to post additional collateral. If the counterparty is unable to satisfy this obligation, Global may incur a loss, measured by the difference between the value of the collateral held by Global and the higher value of the securities loaned. Global may have concentrations with counterparties from time to time. At December 31, 2003, Global had significant concentrations with various counterparties, including the Master Fund.

Global seeks to mitigate its credit risk through a variety of reporting and control procedures, including established credit limits based upon a review of the counterparties' financial condition and credit ratings. In addition, Global monitors the market value of securities borrowed and loaned on a daily basis, with additional collateral obtained or returned as necessary.

8. Related Party Transactions

In the normal course of business, Global enters into securities borrowed and loaned transactions with the Master Fund. At December 31, 2003, Global remitted collateral in the amount of \$28,792 under securities borrowed transactions and held collateral in the amount of \$332,885 under securities loaned transactions. In addition, Global recorded rebate fee income and rebate fee expense in relation to transactions with the Master Fund of \$105 and \$588, respectively. Amounts receivable and payable at December 31, 2003 were \$19 and \$64, respectively.

Certain expenses of Global are incurred by HBK Investments L.P. (the "Manager"), investment manager of the Master Fund. Global entered into a reimbursement agreement whereby Global reimburses the Manager for certain expenses related to the securities lending business. Expenses covered under this agreement are payable to the Manager on a monthly basis and are classified as *Expense reimbursements* on the Statement of Operations.

SCHEDULE I

HBK GLOBAL SECURITIES L.P. COMPUTATION OF NET CAPITAL UNDER RULE 15c3-1 OF THE SECURITIES AND EXCHANGE COMMISSION AS OF DECEMBER 31, 2003 (EXPRESSED IN 000's OF U.S. DOLLARS)

Net Capital				
Total partners' capital		\$	141	,692
Deduct partners' capital not allowable for net capital				-

Independent Auditors Report on Internal Control Required By SEC Rule 17a-5

To the Partners of HBK Global Securities L.P.:

In planning and performing our audit of the financial statements and supplemental schedules of HBK Global Securities L.P. (the "Company") for the year ended December 31, 2003, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (the "SEC"), we have made a study of the practices and procedures followed by the Company, including tests of compliance with such practices and procedures, that we considered relevant to the objectives stated in Rule 17a-5(g), in the following:

- 1. Making the periodic computations of aggregate debits and net capital under Rule 17a-3(a)(11) and the reserve required by Rule 15c3-3(e);
- 2. Making the quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by Rule 17a-13;
- 3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System; and
- 4. Obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by Rule 15c3-3;

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of control and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

PRICEWATERHOUSE COPERS @

To the Partners of HBK Global Securities L.P.: Page 2

Because of inherent limitations in internal control or the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of internal control to future periods is subject to the risk that controls may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of one or more of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including procedures for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2003 to meet the SEC's objectives.

This report is intended solely for the information and use of management, the SEC, the National Association of Securities Dealers, Inc., and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
